FOREWORD

The Government of Kenya is committed to ensuring that policy objectives for Education, Training, and Research meet the aspirations of the Constitution of Kenya 2010, the Kenya Vision 2030, the National Curriculum Policy 2019, the United Nations Sustainable Development Goals (SDGs), and the regional and global conventions to which Kenya is a signatory. Towards achieving the mission of basic education, the Ministry of Education (MoE) has successfully and progressively rolled out the implementation of the Competency Based Curriculum (CBC) at Pre-Primary, Primary and Junior School levels.

The implementation of the Competency Based Curriculum involves monitoring and evaluation to determine its success. After the five-year implementation cycle, a summative evaluation of the primary education cycle was undertaken to establish the achievement of learning outcomes as envisaged in the Basic Education Curriculum Framework. The Government of Kenya constituted a Presidential Working Party on Education Reforms (PWPER) in 2022 to address salient issues affecting the education sector. PWPER made far-reaching recommendations for basic education that necessitated curriculum review. The recommendations of the PWPER, monitoring reports, summative evaluation of the primary education cycle and feedback from curriculum implementers and other stakeholders led to rationalisation and review of the basic education curriculum.

The reviewed Grade 8 curriculum designs build on competencies attained by learners at the end of Grade 7. Further, they provide opportunities for learners to continue exploring and nurturing their potential as they prepare to transit to Senior School.

The curriculum designs present the National Goals of Education, essence statements, expected general and specific learning outcomes for the subjects as well as strands and sub strands. The designs also outline suggested learning experiences, suggested key inquiry questions, core competencies, Pertinent and Contemporary Issues (PCIs), values, and the assessment rubric. It is my hope that all government agencies and other stakeholders in Education will use the designs to plan for effective and efficient implementation of the CBC.

HON. EZEKIEL Ombaki MACHOGU, CBS
CABINET SECRETARY,
MINISTRY OF EDUCATION

PREFACE

The Ministry of Education (MoE) nationally implemented the Competency Based Curriculum (CBC) in 2019. Grade 8 is the second grade of Junior School in the reformed education structure.

The reviewed Grade 8 curriculum furthers implementation of the CBC from Grade 7 at the primary education level. The main feature of this level is a broad curriculum for the learner to explore talents, interests, and abilities before selection of pathways and tracks at the Senior School education level. This is very critical in the realisation of the Vision and Mission of the ongoing curriculum reforms as enshrined in the Sessional Paper No. I of 2019: *Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development* in Kenya. The Sessional Paper explains the shift from a Content-focused Curriculum to a focus on **Nurturing Every Learner's potential**.

Therefore, the Grade 8 curriculum designs are intended to enhance the learners' development of the CBC core competencies, namely: Communication and Collaboration, Critical Thinking and Problem-solving, Creativity and Imagination, Citizenship, Digital Literacy, Learning to Learn, and Self-efficacy.

The curriculum designs provide suggestions for interactive and differentiated learning experiences linked to the various sub strands and the other aspects of the CBC. They also offer several suggested learning resources and a variety of assessment techniques. It is expected that the design will guide teachers to effectively facilitate learners to attain the expected learning outcomes for Grade 8 and prepare them for a smooth transition to Grade 9. Furthermore, it is my hope that teachers will use the designs to make learning interesting, exciting, and enjoyable.

ACKNOWLEDGEMENT

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2019) mandates the Institute to develop and review (*SNE adapt*) curricula and curriculum support materials for basic and tertiary education and training. The curriculum development process for any level of education involves thorough research, international benchmarking, and robust stakeholder engagement. Through a systematic and consultative process, the KICD conceptualised the Competency Based Curriculum (CBC) as captured in the Basic Education Curriculum Framework (BECF) 2017. The curriculum responds to the demands of the 21st Century and the aspirations captured in the Constitution of Kenya 2010, the Kenya Vision 2030, the East African Community Protocol, the International Bureau of Education Guidelines and the United Nations Sustainable Development Goals (SDGs).

KICD receives its funding from the Government of Kenya to facilitate the achievement of its stipulated mandate and implementation of the Government and Sector (Ministry of Education-MoE) plans. The Institute also receives support from development partners targeting specific programmes. The revised Grade 8 curriculum designs were developed with the support of the World Bank through the Kenya Primary Education Equity in Learning Programme (KPEELP); a project coordinated by MoE. Therefore, the Institute is very grateful to the Government of Kenya, through the MoE and the development partners for the policy, resource, and logistical support. Specifically, special thanks goes to the Cabinet Secretary-MoE and the Principal Secretary - State Department of Basic Education.

We also wish to acknowledge the KICD curriculum developers and other staff, all teachers and educators who took part as panelists; the Semi-Autonomous Government Agencies (SAGAs), and representatives of various stakeholders for their roles in the development of the Grade 8 curriculum designs. In relation to this, we acknowledge the support of the Chief Executive Officers of the Teachers Service Commission (TSC) and the Kenya National Examinations Council (KNEC) during the process of developing these designs. Finally, we are very grateful to the Chairperson of the KICD Council and other members of the Council for the very consistent guidance throughout the process.

We assure all teachers, parents and other stakeholders that this curriculum design will effectively guide the implementation of the CBC in Grade 8 and the preparation of learners for transition to Grade 9.

NATIONAL GOALS OF EDUCATION

Education in Kenya should:

1. **Foster nationalism and patriotism and promote national unity**

The people of Kenya belong to different communities, races and religions, but these differences need not divide them. They must be able to live and interact as Kenyans. It is a paramount duty of education to help young people acquire this sense of nationhood by removing conflicts and promoting positive attitudes of mutual respect, to live together in harmony and foster patriotism, to make a positive contribution to the life of the nation.

2. **Promote the social, economic, technological and industrial needs for national development**

Education should prepare the youth of the country to play an effective and productive role in the life of the nation.

a) **Social Needs**

Education in Kenya must prepare children for changes in attitudes and relationships which are necessary for the smooth progress of a rapidly developing modern economy. There is bound to be a silent social revolution following the wake of rapid modernisation. Education should assist our youth to adapt to this change.

b) **Economic Needs**

Education in Kenya should produce citizens with the skills, knowledge, expertise and personal qualities that are required to support a growing economy. Kenya is building up a modern and independent economy that requires an adequate and relevant domestic workforce.

c) **Technological and Industrial Needs**

Education in Kenya should provide learners with the necessary skills and attitudes for industrial development. Kenya recognises the rapid industrial and technological changes taking place, especially in the developed world. We can only be part of this development if our education system is deliberately focused on the knowledge, skills and attitudes that will prepare our young people for these changing global trends.

3. **Promote individual development and self-fulfilment**

Education should provide opportunities for the fullest development of individual talents and personality. It should help children to develop their potential interests and abilities. A vital aspect of individual development is the building of character.

4. Promote sound moral and religious values

Education should provide for the development of knowledge, skills and attitudes that will enhance the acquisition of sound moral values and help children to grow up into self-disciplined, self-reliant and integrated citizens.

5. Promote social equity and responsibility

Education should promote social equality and foster a sense of social responsibility within an education system that provides equal educational opportunities for all. It should give all children varied and challenging opportunities for collective activities and corporate social service irrespective of gender, ability or geographical environment.

6. Promote respect for and development of Kenya's rich and varied cultures

Education should instil in the youth of Kenya an understanding of past and present cultures and their valid place in contemporary society. Children should be able to blend the best of traditional values with the changing requirements that must follow rapid development to build a stable and modern society.

7. Promote international consciousness and foster positive attitudes towards other nations

Kenya is part of the international community. It is part of the complicated and interdependent network of peoples and nations. Education should therefore lead the youth of the country to accept membership of this international community with all the obligations and responsibilities, rights and benefits that this membership entails.

8. Promote positive attitudes towards good health and environmental protection

Education should inculcate in young people the value of good health in order for them to avoid indulging in activities that will lead to physical or mental ill health. It should foster positive attitudes towards environmental development and conservation. It should lead the youth of Kenya to appreciate the need for a healthy environment.

LEARNING OUTCOMES FOR JUNIOR SCHOOL

By end of Junior School, the learner should be able to:

1. Apply literacy, numeracy and logical thinking skills for appropriate self-expression.
2. Communicate effectively, verbally and non-verbally, in diverse contexts.
3. Demonstrate social skills, spiritual and moral values for peaceful co-existence.
4. Explore, manipulate, manage and conserve the environment effectively for learning and sustainable development.
5. Practise relevant hygiene, sanitation and nutrition skills to promote health.
6. Demonstrate ethical behaviour and exhibit good citizenship as a civic responsibility.
7. Appreciate the country's rich and diverse cultural heritage for harmonious co-existence.
8. Manage pertinent and contemporary issues in society effectively.
9. Apply digital literacy skills for communication and learning.

ESSENCE STATEMENT

Kenya is part of the international community and therefore learners should have the opportunity to learn foreign languages in addition to the national, official and indigenous languages. These foreign languages include Arabic, French, German and Mandarin Chinese. The learner is expected to acquire the four language skills of listening, speaking, reading, and writing at a basic level as part of the non-formal curriculum. This gives the learner the opportunity to acquire language skills in an experiential, innovative and flexible way. Language learning at this level is guided by social-constructivist and environmental theories. Learning these languages will promote international awareness and appreciation of one's own and other cultures. The learner will move on to the Senior School level having acquired basic proficiency equivalent to A1/YCT 2.

GENERAL LEARNING OUTCOMES

By the end of Junior School, the learner should be able to:

- a) Apply literacy, numeracy skills and logical thinking appropriately in self-expression.
- b) Communicate effectively in diverse contexts.
- c) Apply digital literacy skills appropriately for communication and learning in day-to-day life.
- d) Practise hygiene, appropriate sanitation and nutrition to promote health.
- e) Explore, manipulate, manage and conserve the environment effectively for learning and sustainable development.
- f) Demonstrate ethical behaviour and exhibit good citizenship as a civic responsibility.
- g) Demonstrate social skills, spiritual and moral values for peaceful co-existence.
- h) Demonstrate appreciation of the country's rich, diverse cultural heritage for harmonious co-existence, manage pertinent and contemporary issues in society effectively.

THEME 4: TIME

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Listening and Speaking	1.4 Oral Expression (3 lessons) <ul style="list-style-type: none"> • <i>Active listening</i> • <i>Comprehension</i> 	By the end of the Sub Strand, the learner should be able to: a) distinguish familiar and unfamiliar words and phrases in texts, b) respond to simple questions clearly and logically, c) appreciate the importance of listening attentively while communicating.	The learner is guided to: <ul style="list-style-type: none"> • compare telling the time in English, Kiswahili and Chinese collaboratively and share their findings, • look at a 12-hour clock and say the time using 点 <i>diǎn</i> and 分 <i>fēn</i>, • tell the time using 半, 刻 and 差 (e.g. 8:30 八点半; 6:15 六点一刻; 4:45 差一刻五点), • say the time in a.m. and p.m. using 早上, 上午, 下午, 晚上 in turns (e.g. 7:30 p.m. 晚上 7 点半), • work together to ask for the time (e.g. 现在几点? 现在 9 点 55 分。), • talk about the specific times they undertake various subjects at their school with peers (e.g. 我们几点上汉语课? 我们明天 8 点中上汉语课。), • discuss the importance of having a to do list to enable them effectively meet their set goals collaboratively. 	How can one practise active listening skills?

Core Competencies to be developed:

Learning to learn: the learner becomes aware of the importance of planning and managing time effectively when they discuss why having a to do list enables one to meet set goals.

Values:

Unity: the learner collaborates with others when they share their findings of telling time in English, Kiswahili and Chinese to peers.

Pertinent and Contemporary Issues (PCIs):

Peer education and mentorship: the learner discusses with peers and gains a new perspective of how they can effectively achieve their set goals by keeping a to do list.

Link to Other Learning Areas:

The learner links their learning to Mathematics on the use of time to quantify, measure and compare the duration and sequence of events.

The learner is guided to: <ul style="list-style-type: none"> • watch a video clip and list the physical features highlighted with peers (山、湖、河、洋、海、大裂谷、沙漠、森林), • play a bingo game on physical features in class (i.e. learners listen to vocabulary related to physical features and on their bingo card, mark off all the words, the first person to finish must call out: ‘zhòng le!’), • listen to an audio on physical features and summarise the key points, • listen to simple descriptions of physical features and say out the physical feature that matches the description (它很高, 上面有雪), • research and present on challenges facing physical features within their environment and propose solutions to address them collaboratively. 	How can you improve your ability to retain information while listening?

Core Competencies to be developed:

Learning to learn: the learner works collaboratively with peers to propose solutions for challenges facing the physical features in their locality.

Values:

Responsibility: the learner works with peers to identify the physical features highlighted in the video clip.

Pertinent and Contemporary Issues (PCIs):

Environmental education: this is nurtured when the learner researches, discusses and presents solutions to challenges affecting physical features in their environment as well as identifying the physical features highlighted in the video clip.

Link to Other Learning Areas:

- The learner relates the study of physical features in their environment to Social Studies.
- The learner applies the skill of comprehensively summarising key information from texts as learnt in English and Kiswahili.

--	--	--	--	--

Core Competencies to be developed:

Communication and Collaboration: the learner develops teamwork skills as they take turns to simulate conversations based on word prompts.

Values:

- Unity: this is developed as the learner collaborates with their peers to rearrange jumbled up words to form correct sentences on self-introduction.
- Respect: the learner exhibits positive regards for self and others when they address them appropriately in formal contexts.

Pertinent and Contemporary Issues (PCIs):

Cultural awareness: the learner develops effective cross-cultural communication skills when they search for customs related to greetings and introductions in Kenya and China.

Link to Other Learning Areas:

The learner links their learning to English and Kiswahili on the use of appropriate words to express courtesy and respect in different contexts.

Core Competencies to be developed:

Communication and Collaboration: teamwork skills are exhibited when the learner reads out names of different professions collaboratively.

Values:

Unity: the learner takes turns to read aloud paragraphs and assess each other's pronunciation.

Pertinent and Contemporary Issues (PCIs):

- Peer education and mentorship: the learner receives constructive feedback on their fluency when they take turns to read paragraphs for their peers to assess their pronunciation of words.
- Cultural awareness is enhanced as the learner compares naming of extended family members in Chinese, English and Kiswahili.

Link to Other Learning Areas:

The learner links their learning to English and Kiswahili on the importance of pronouncing words properly for fluency.

Core Competencies to be developed:

Communication and Collaboration: the learner contributes to group decision making when they participate actively in reading simple sentences using the given words and phrases with peers.

Values:

Unity: the learner displays team spirit as they take turns to talk about the time that they undertake various learning areas in school.

Pertinent and Contemporary Issues (PCIs):

Time management is developed when the learner collaborates with peers to create a talking wall in the classroom on the value of managing time while in school.

Link to Other Learning Areas:

The learner links their learning to Mathematics on the use of time to quantify, measure and compare the duration and sequence of events.

THEME 5: FUN AND ENJOYMENT

Core Competencies to be developed:

Digital literacy: the learner uses digital technology to read materials on recreational activities in Kenya and China.

Pertinent and Contemporary Issues (PCIs):

Cultural awareness: the learner develops an understanding of the various recreational sites in their locality during the presentations by their peers.

Values:

Respect: the learner appreciates diverse opinions of their peers as they summarise their findings on recreational activities in Kenya and China from the online search.

Link to Other Learning Areas:

Learners link their learning to Creative Arts and Sports by engaging in recreational activities to observe mindfulness and keep physically active lifestyles.

Core Competencies to be developed:

Learning to learn: the learner builds meaningful relationships with their peers as they work collaboratively in rearranging jumbled up sentences correctly.

Pertinent and Contemporary Issues (PCIs):

Peer education and Mentorship: the learner engages in collaborative learning as they read varied texts aloud for their peers to give constructive feedback.

Values:

Unity: team spirit is displayed as the learner works together with their peers to respond to questions from the dialogue.

Link to Other Learning Areas:

Learners link their learning to English and Kiswahili when applying fluency skills across varied texts to enhance comprehension.

--	--	--	---	--

Core Competencies to be developed:

- Communication and Collaboration: teamwork skills are exhibited as the learner participates actively in simulating the feeling/emotion depicted in flashcards with peers.
- Self-efficacy is developed as the learner discusses practical solutions for how they can deal with their emotions with peers.

Values:
Love is nurtured as the learner interacts with varied emotions from peers during simulation exercises, developing a sense of understanding and awareness.

Pertinent and Contemporary Issues (PCIs):
Mental health: the learner develops the ability to regulate their emotions effectively as they research and propose practical approaches for managing their emotions with peers.

Link to Other Learning Areas:
The learner relates the concept of managing one's feelings and emotions appropriately to Religious Education.

Core Competencies to be developed:

Citizenship: the learner develops a sense of responsibility and engagement as they read on ways to take care of physical features in their community.

Values:

Responsibility: the learner proactively solves problems as they give solutions to the challenges they face when reading comprehension texts.

Pertinent and Contemporary Issues (PCIs):

- Inter-cultural awareness is promoted as the learner researches on physical features in Kenya and China and compares them to the ones found in their community.
- Environmental education: the learner becomes aware of their role in taking care of physical features in their community during discussions with peers.

Link to Other Learning Areas:

The learner links their learning to Social Studies on the concept of how the interactions between human activities and the natural world affect the health and well-being of both people and the planet.

Core Competencies to be developed:

Learning to learn: the learner displays self-discipline skills when they work collaboratively with peers and form correct sentences from jumbled up words.

Values:

Responsibility: the learner engages in assigned roles and duties with their peers as they rearrange jumbled words to form sentences.

Pertinent and Contemporary Issues (PCIs):

Safety: the learner becomes aware of safety issues arising from the use of various means of transport as they take turns to read the passage.

Link to Other Learning Areas:

The learner can relate their learning to Social Studies on the concept of observing safety precautions when using various means of transport.

SUGGESTED ASSESSMENT RUBRIC FOR THE READING STRAND

Level Indicator	Exceeding Expectations	Meeting Expectations	Approaching Expectations	Below Expectations
Ability to pronounce words in simple texts for accuracy in reading.	The learner impeccably pronounces words in simple texts on familiar topics to convey the intended meaning; makes no errors even for texts on unfamiliar topics.	The learner pronounces words in simple texts on familiar topics accurately to convey the intended meaning.	The learner pronounces words in simple texts on familiar topics with few errors; errors minimally hamper the ability to convey the intended meaning.	The learner pronounces words in simple texts on familiar topics with many errors; errors greatly hamper the ability to convey the intended meaning.
Ability to read varied texts fluently.	The learner exhibits clear and precise pronunciation of words with distinct pronunciation of the sounds; articulates words fluently.	The learner exhibits clear and fluent pronunciation and articulation of words.	The learner exhibits clear pronunciation of words most times; articulates some words fluently but others are unclear.	The learner exhibits clear pronunciation of words sometimes; articulates some words fluently but most are unclear.
Ability to read and comprehend simple texts.	The learner comprehends all questions in context and gives correct answers to all the questions; makes use of extensive vocabulary in giving responses to questions.	The learner comprehends all questions in context and gives correct answers to all the questions; makes use of adequate vocabulary in giving responses to questions.	The learner comprehends many of the questions in context and gives correct answers to most of them; vocabulary used in giving responses to questions is limited but sufficient.	The learner comprehends few questions in context and gives correct answers to a few of them, vocabulary used in giving responses to questions is very limited and insufficient.

APPENDIX 1: GUIDELINES FOR INTEGRATING COMMUNITY SERVICE LEARNING (CSL) PROJECT

Introduction

In Grade 8, learners will undertake an integrated Community Service Learning (CSL) project of choice from a single or combined subject. The CSL project will enable the learner to apply knowledge and skills from other subjects to address a problem in the community. The implementation of the integrated CSL project will take a Whole School Approach, where all members of the school community including teachers, school administration, parents/guardians/ local community, and support staff are involved. It will be a collaborative effort where the teacher of Social Studies coordinates and works with other subject teachers to design and implement the integrated CSL projects. The teachers will select a theme drawn from different Learning Areas and the broader categories of Pertinent and Contemporary issues (PCIs) for the CSL project. It should also provide an opportunity for the development of core competencies and nurturing of values. Learners will undertake **one common** integrated class CSL project following a 6-step milestone approach as follows:

Milestone	Description
Milestone 1	Problem Identification Learners study their community to understand the challenges faced and their effects on community members. Some of the challenges in the community can be: <ul style="list-style-type: none">● Environmental degradation● Lifestyle diseases, communicable and non-communicable diseases● Poverty● Violence and conflicts in the community● Food security issues

Milestone 2	Designing a solution Learners create an intervention to address the challenge identified.
Milestone 3	Planning for the Project Learners share roles, create a list of activities to be undertaken, mobilise resources needed to create their intervention and set timelines for execution.
Milestone 4	Implementation The learners execute the project and keep evidence of work done.
Milestone 5	Showcasing /Exhibition and Report Writing Exhibitions involve displaying learners’ project items to the community and reflecting on the feedback. Learners write a report detailing their project activities and learnings from feedback.
Milestone 6	Reflection Learners review all project work to learn from the challenges faced. Learners link project work with academic concepts, noting how the concepts enabled them to do their project, as well as how the project helped to deepen learning of the academic concepts.

Note: The milestones will be staggered across the 3 terms of the academic calendar.

Assessment of CSL integrated Project

Assessment for the integrated CSL project will be conducted formatively. The assessment will consider both the process and end product. This entails assessing each of the milestone stages of the integrated CSL class project. It will focus on 3 components namely: skills from various learning areas applied in carrying out the project, core competencies developed and values nurtured.
